

Smoking Reminder CUPE BC Regional Office

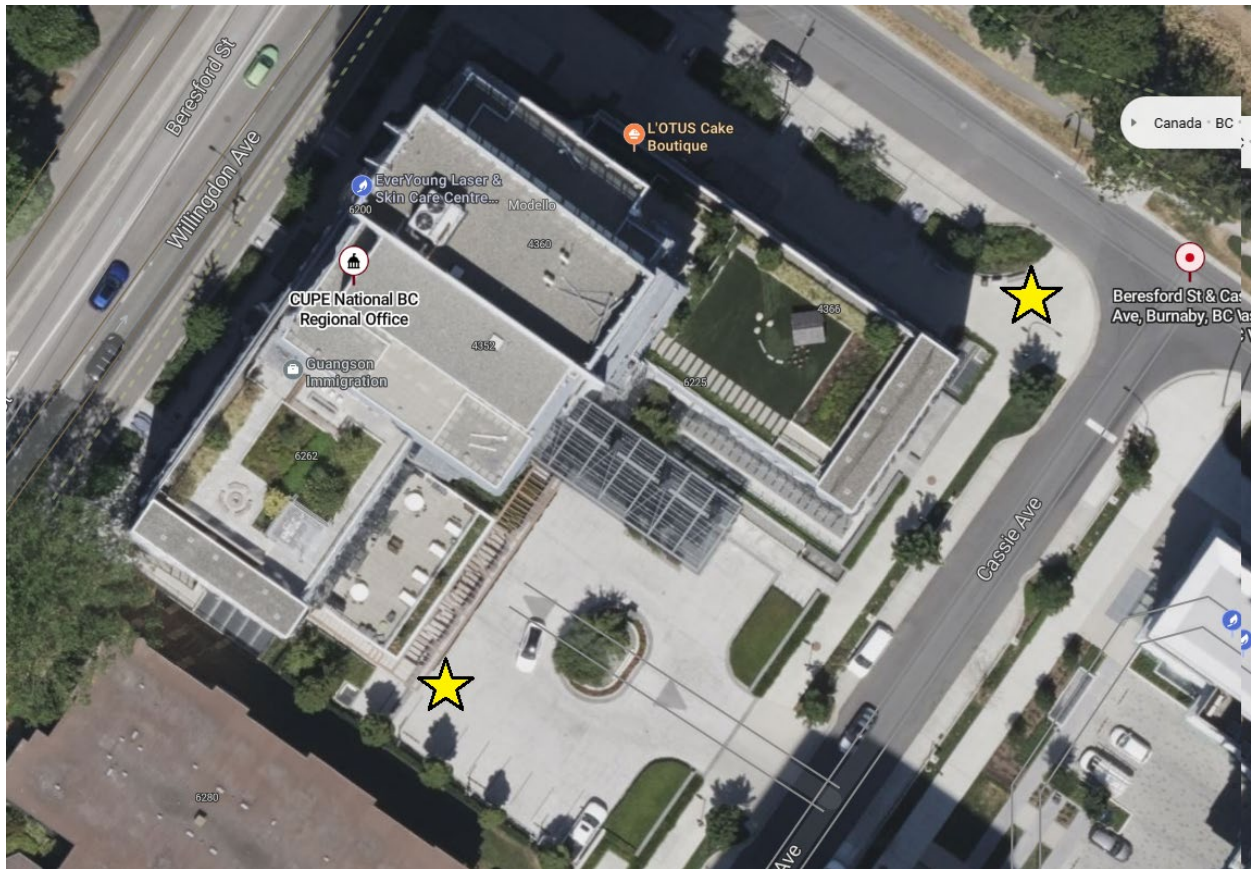

Please note that smoking is only permitted in the **loading bay area** of the CUPE BC Regional Office (Modello Building) property and that all other areas are non-designated for smoking.

The loading bay is located to the left of the underground parking garage entrance facing Cassie Avenue.

Please also ensure to dispose of cigarette butts and ashes in the provided ashtray, not on the ground nor in any of the planters on premise. Both CUPE National and CUPE BC have received numerous complaints from the Modello building management around the incorrect disposal of cigarette butts, and we want to respect the space we share with the building residents.

Just around the corner from the CUPE Office building entrance, there is also a public ashtray on top of a garbage can (located on the corner of Beresford and Cassie Avenue near a bench). The location is marked with a yellow star on the image below:

Thank you for keeping the building area clean and welcoming for CUPE members and Modello building residents.
